3rd AUGUST
CONFERENCE
**M.S. Ramaiah Medical
College and Hospital
Bengaluru**

First Annual National Conference of Pediatric Critical Care Nursing

Nursing PediCritiCon 2025 is a one-of-a-kind national gathering, thoughtfully curated to enrich knowledge, enhance clinical skills, and keep nurses abreast of best practices in pediatric critical care.

The event commences with two days of **12 immersive pre-conference workshops**, conducted **across leading hospitals in Bengaluru**. These workshops cover a wide spectrum of topics, from foundational pediatric critical care nursing to specialized areas such as extracorporeal therapies.

Culminating in a **Mega Main Conference on August 3rd at M.S. Ramaiah Medical College & Hospital** - an academic celebration featuring some of India's most esteemed doctors and nurses. The conference will include poster presentations, panel discussions, debates, and keynote sessions, designed to foster a spirit of interdisciplinary learning and collaboration.

As we come together to explore, engage, and redefine pediatric critical care, we also mark the beginning of a new era - **one led by a skilled, empowered, and united nursing force dedicated to transforming the care of critically ill children**. To each of you : Your dedication is the quiet force turning vision into reality. Whether you're organizing logistics, mentoring peers, or sparking conversations - **your work is the invisible thread binding this movement together**. Let us move forward with purpose and grace, ensuring every voice is heard, every idea welcomed and every participant leaves transformed.

*"And when the curtains rise on this historic gathering,
may your hands, hearts, and voices be the light that guides us forward."*

**With deepest gratitude and unwavering belief in your magic,
— The Organising Team**

First Annual National Conference of Pediatric Critical Care Nursing

1st - 3rd AUGUST

Why Nursing PediCritiCon

Pediatric critical care nursing in India is a field defined by quiet excellence — a discipline where lives are saved not only by machines or medicines, but by the unwavering presence, intuition, and resilience of nurses at the bedside. Yet for far too long, this vital pillar of pediatric care has remained underrepresented in national discourse and professional development platforms.

Having had the privilege of working alongside some of the most dedicated, compassionate, and resilient nurses in pediatric critical care. We cannot express how deeply fulfilling it is to bring Nursing PediCritiCon 2025 to life.

Nursing PediCritiCon was created to march towards a change it is a small yet long-overdue step towards Recognizing the unique expertise and contributions of pediatric critical care nurses. Bridging the divide between knowledge and practice through hands-on learning, creating a shared space where nurses and doctors collaborate as equal Inspiring the next generation of nursing leaders to rise with confidence and competence.

It's also a tribute. A tribute to the tireless hands that comfort, the sharp minds that act swiftly, and the hearts that care beyond measure.

*To every nurse we have worked with, learned from, and leaned on — this one is for you.
"We envisioned Nursing PediCritiCon not as a one-time event, but as a beginning
—a beginning where the silent strength of nurses is no longer silent."*

An ode to a simple truth —

"that the hands which hold the most fragile lives deserve to be uplifted, educated, and heard and If we are to advance the field of pediatric critical care meaningfully, we must do so with nurses at the helm — not in the margins"

WORKSHOP: 1st and 2nd AUGUST

BPCCN Basic Pediatric Critical Care Nursing

 60 Seats

Ramaiah Advanced Learning Center

8:00AM - 5:00PM

Objectives

- Basic physiology of Paediatric Critical Care
- Systematic assessment and triaging
- Basic Respiratory Hemodynamic and Neurologic conditions management
- Communication and Crisis Resource Management
- Simulation Based Scenarios

Who Should Attend

- New Join IDPCCN Fellows
- Fresh ICU nurses
- Adult ICU nurses interested in Pediatrics
- Msc Students
- Bsc Students

IAP Nurses BLS/ALS

 40 Seats

Cloud Nine Hospital ,Old Airport Road

8:00AM - 5:00PM

Objectives

- Basic life support in infants, child and adult Structured approach and assessment of sick child
- Basic identification and management of cardiac rhythms Case simulations: Respiratory, shock and rhythm
- Team dynamics

Who Should Attend

- Nurses working in Pediatric ward, OPD, ICU
- Nurses taking care of children in nursing homes
- Bsc Student nurses
- Msc Student Nurses

WORKSHOP: 1st AUGUST

PEARL

Workshop is exclusive for Allied Speciality

 40 Seats

Pediatric Emergency Resuscitation for Ambulance Leaders

St Johns Medical College

8:00AM - 5:00PM

Objectives

- Recognising Pediatric emergencies
- Differences in resuscitation between children and adults
- BLS in children
- Basic trauma care
- Pre-hospital care in pediatric emergencies

Who Should Attend

- Ambulance Technicians & Drivers
- Emergency Technician - Students
- OT Technicians
- House keeping Supervisors

[CLICK TO REGISTER](#)

WORKSHOP: 1st AUGUST

DAY ONE - PROGRAMME

ESSNCE

Essential Simulation Skills for
Nurses Clinical Education

 30 Seats

Karnataka College Of Nursing

8:00AM - 5:00PM

Objectives

- Fundamentals of nursing simulation
- Teamwork, leadership, & communication skills in clinical practice.
- Props and moulages to create realism in simulation
- Skills of structured debriefing
- Creating psychologically safe learning

Who Should Attend

- Nursing Educators
- Nursing College Faculty
- PICU nurses
- Pediatric Msc Students
- Bsc students

PeC3N

Paediatric Cardiac Critical Care Nursing

40 Seats

Narayana Hrudayalaya

8:00AM - 5:00PM

Objectives

- Hemodynamic monitoring in postoperative cardiac cases
- Identifying and managing cardiac arrhythmias
- Care of children with Pulmonary
- Hypertension crisis, pacing and open chest

Who Should Attend

- Nurses working in cardiac ICU
- Student Nurses
- ECMO technicians

TAT

Transport and Trauma Workshop

40 Seats

Rainbow Children's Hospital, Marathalli

8:00AM - 5:00PM

Objectives

- Identify the sequence in primary and secondary surveys in case of Basic procedures in Trauma care
- Management in paediatric spinal safe pediatric transport
- Effective handover during transport process, Preparation for transport

Who Should Attend

- Pediatric ER Nurses
- PICU and NICU Nurses
- Emergency Department
- Managers & Leaders
- Nursing Educators & Researchers
- Students Nurse

[CLICK TO REGISTER](#)

BMV Basic Mechanical Ventilation Workshop

40 Seats

Rangadore Memorial Hospital

8:00AM - 5:00PM

Objectives

- Basic Principles of Mechanical Ventilation in Children
- Non Invasive Ventilation Including HFNC
- Mechanical : Conventional Ventilation : Basic Modes
- Troubleshooting of Ventilators
- Case scenarios & common disease conditions

Who Should Attend

- Post IDPCCN fellows
- PICU /HDU/CICU/ER, Adult ICU/ER Nurses (min2 yrs experience)
- Physician Assistants, Respiratory Therapists
- Nursing Practitioners (NPCC)

PEERS Pediatric Essential Emergency Resuscitation Skills

40 Seats

Indira Gandhi Institute of Child Health

8:00AM - 5:00PM

Objectives

- Triaging and Pediatric emergency Preparedness
- Systematic Assessment to Identify Sick Children
- Pediatric BLS
- Common To do Now Situations in Sick Children (Resp Distress/Shock/Dengue/Snake Bite/Trauma)
- Resource Utilisation

Who Should Attend

- District Hospital Nurses
- Taluk Hospital Nurses
- Adult Nurses from Nursing Homes
- Nurses from tier 2 City General Hospitals
- Adult ER Nurses
- Pediatric Ward Nurses

CHAIN Course in Hemat-oncology, Antimicrobial, & Immunocompromised Nursing

40 Seats

Aster CMI, Hebbal

8:00AM - 5:00PM

Objectives

- Fundamentals of Transplant Nursing both Pre and Post Transplant care
- Infection control practices with special emphasis on immunocompromised patients
- Chemotherapy administration and waste management

Who Should Attend

- PICU nurses handling
- Transplant patients
- Transplant Nurses
- BMT Nurses
- Nursing Supervisors
- Msc Students
- Infection Control Nurses

NEXT Nursing in Extracorporeal Therapies (ECMO+CRRT+SLED)

40 Seats

Manipal Hospital ,Old Airport Road

8:00AM - 5:00PM

Objectives

- Nursing care of a child on extra corporeal life support, dialysis (SLEDD), continuous renal replacement therapy
- Problem solving for nurses on common clinical challenges while a patient is on ECLS
- Infection control practices in these situation

Who Should Attend

- PICU /HDU/CICU/NICU/Cardiac ICU Nurses Adult ICU/
- Dialysis unit nurses
- Physician Assistants
- Nursing Practitioners (NPCC)
- MSc and Bsc Students
- Perfusionists
- Dialysis Technicians

LEAP Liberation, Early Awakening and Activity in PICU

30 Seats

Ramaiah Memorial Hospital

8:00AM - 5:00PM

Objectives

- Assessment of sedation, pain and delirium
- PICU liberation bundle
- Early mobilization in ICU

Who Should Attend

- PICU Nurses
- Physiotherapists
- Occupational Therapist
- MSc Nursing Students
- Nursing Educators

EQuIP Essentials of Quality Improvement for Patient Safety

30 Seats

Baptist Hospital

8:00AM - 5:00PM

Objectives

- PDSA Cycle
- How to plan QI projects
- Utilising QI for Patient Safety

Who Should Attend

- PICU Nurse Supervisors
- Nurse Educators
- Quality Improvement Department Nurses
- PICU Bedside Nurses

CONFERENCE : 3rd AUGUST

SCIENTIFIC PROGRAMME

Hall A

Time	Session	Topic	Speakers - TBA
Theme: Cardiovascular: Let's talk heart to heart			
9:00 - 9:20am	Talk	Blue baby and Pink baby. What happens before surgery?	
9:20 - 10:00am	Panel Discussion	Guiding the Circulation :Ionopressors in ICU :Case based decision	
10:00 - 10:20am	Talk	Nurse led early extubation in cardiac intensive care. What is the evidence?	
10:20- 10:45am	PLENARY	"Empowering the Bedside Nurse: A win -Win for all stakeholders"	
10:45 - 11:00am	TEA BREAK		
11:00 - 11:20 am	PLENARY	"Nurse Empowerment- Milestones that lit the way"	
Theme: Respiratory: Breathe Easy :Every breath counts			
11:20- 11:40am	Talk	Nurse champion in ventilation: "Protect the lungs and protect the child"	
11:20 - 12:00am	Panel Discussion	The respiratory Menu Card in PICU- Choosing the right Non –invasive support. Case based discussion	
12:00 - 12:15pm	Talk	Inhalational therapy in PICU	
Theme: Neurological: Let's act fast and protect the brain			
12:15 - 12:30pm	Talk	Helping kids with Raised ICP ... why we do what we do?	
12:30-1:10pm	Panel Discussion	Neurosurgical post op care & Challenges: Case based discussion	
1:10 - 2:00pm	LUNCH		
2:00 - 2:30pm	Panel Discussions	Guardian angels in action: Champions for safety and quality PICU care	
2:30 - 3:00pm	DEBATE	Family presence and participative care in PICU. Boon or Bane	
3:00 - 4:00pm	QUIZ TIME		
4:00 - 4:30pm	Award Ceremony	Curtains Down

Welcome to Namma Bengaluru — Where Every Heartbeat Tells a Story — of Tradition, Innovation, and Care

Step into ಬೆಂಗಳೂರು — Our Bengaluru — a city where ancient wisdom walks beside innovation, and every corner hums with history, hope, and heart.

Often hailed as India's Silicon Valley, Bengaluru is more than a tech capital — it's a **city of contrasts**: where centuries-old whispers from narrow lanes blend seamlessly into the gleaming corridors of innovation, weaving a vibrant tapestry that is at once familiar and exhilaratingly new.

Amidst the city's energy, you'll find pockets of peace — stroll through **Lalbagh** or **Cubbon Park**, or watch reflections ripple across **Ulsoor Lake**, **Sankey Tank**, and **Agara Lake**.

Let the city's culinary soul awaken your senses — from the first sip of filter coffee at **Hatti Kaapi**, to the comfort of **Bisi Bele Bath**, the crisp joy of a **Masala Dosa**, and the spice-splashed streets of **Basavanagudi Chat Street**. Be it **Veena stores** or **CTR** its a simple example of simplicity meeting class From the charm of old Bangalore cafés like **Koshy's** to the modern buzz of Indiranagar's **microbreweries**, Bengaluru serves tradition with a twist.

But this city is more than its sights and flavours. It's a cradle of healing and knowledge, home to pioneering hospitals and research institutes. It's a stage for expression — where Bharatanatyam meets African jazz, and where **Ranga Shankara** and **Chitrakala Parishath** keep the arts alive and stirring.

Beyond its boundaries lie timeless treasures — the sculpted wonders of **Belur** and **Halebeedu**, the serenity of the **Adiyogi Shiva statue**, the misty trails of **Nandi Hills** and **Skandagiri**, and the regal charm of **Mysuru**.

Bengaluru moves with its own rhythm — a blend of chaos and calm that somehow makes sense. Its charm lies in quiet gestures, thoughtful spaces, and the ease with which it lets you belong.

Whether you've travelled from across the country or across continents, you'll find in this city not just a welcome, but a quiet sense of connection.

We eagerly await the moment to welcome you — to share our stories, our science, and our spirit.

Warm regards,
Organizing Committee

The Odyssey of the Logo

At the epicentre of the logo, caring for a sick child, pediatric intensive care, are **Seven** colourful petals, each representing a **pillar of a PICU nurse's** daily responsibilities.

These petals depict safety, vigilant documentation, empathetic detail in medication administration and effective communication. The unique two halves particularly depict the **seamless collaborative team dynamics** with doctors and other health care workers,

forming the foundation of Pediatric Critical Care services.

we see a devoted nurse tenderly embodying the soul of Encircling this emotion petals, each one representing daily responsibilities.

uncompromised patient monitoring, meticulous family support, attention to administration and

The centre petal with its depict the **seamless collaborative** and other health care workers,

Together, these petals adorning the colours of the rainbow form a vibrant spectrum of beauty, symbolising the multifaceted and dynamic role of PICU nurses

Surrounding the epicenter of the nurse & child is a graceful violet arc, depicting self-care; the essential element in the wellbeing of the magnificent carer.

The logo's vibrant hues echo the conference's core theme, **"Educate. Empower. Excel."**, stitching every element into an inspiring tapestry.

In its entirety, this emblem stands as a visual anthem that inspires PICU nurses across the nation to rise, thrive, and soar high in their noble mission.

With Gratitude
